

# Cambodia Effective Development Cooperation and Partnership Report (DCPR)

## *Concept Note*

Prepared by: Ms. CHI Polydeth  
Policy Officer, CRDB/CDC

P&H Meeting  
March 18<sup>th</sup>, 2016

# Objective of DCPR

DCPR's overarching objective is to track progress in development partnerships and provide evidence-based analysis of trends in development cooperation to guide our efforts in strengthening partnerships to support the implementation of the RS III and the NSDP.

# Data sources of DCPR

## Country Level:

- a) ODA Database (data extracted in March) DP/NGO disbursement trends
- b) NSDP alignment (based on resource required)
- c) Industrial Development Policy (IDP)
- d) Cross-cutting issues (climate change, gender equality, private sector)
- e) Second Round of Busan monitoring survey – Cambodia inputs

## Global Level:

- a) Sustainable Development Goals (SDGs) and its financing “the Third International Conference on Financing for Development (FfD)”
- b) Other relevant items of global researches

# Structure of DCPR

1. **Introduction:** reflects evolution of development cooperation architecture at global and national levels, addresses its challenges and opportunities
2. **Trend in Development Cooperation:** (total disbursement by DPs/sectors, aid modalities, alignment of ODA with national priorities, NGOs support to national development, TWG profiles etc)
3. **Result-Based Partnerships:** a reflection on commitments by individual DP against the Busan partnership indicators
4. **Cross Cutting Thematic Profiles:** (Emerging sector for IDP, Climate Change Finance, Gender equality, Agriculture)
5. **Emerging sector for IDP :** (DP funding to support IDP)
6. **Conclusion:** (summary, roles and institutional arrangements, policy recommendation)

# Process of DCPR

- A refresher course on "ODA database and data entry management conducted in mid-November 2015
- (DPs) data update/validation: till end of 2015, CRDB/CDC outreach team has well supported the process
- (CDC) data validation process: early 2016
- The analysis stage begins in March 2016
- CRDB/CDC will produce draft report during Q2 of 2016.

**Thank for your kind attention!**
